

“God Created Marriage”

Genesis 3:15:25

February 3, 2019

The Garden of Eden is a historical place. Nobody knows for sure where it was located. Some years ago, Charles Osgood did a special report for CBS. His research found that scientists have traced by DNA the beginning of mankind to a woman who lived in Africa. If that is true her name was Eve, her husband was Adam and their home was Eden.

It is amazing when we study Genesis that God included marriage to complete His creative work.

I) Marriage Was The Crown Jewel Of Creation:

A) The Garden of Eden was perfect.

B) Creation was beautiful, wonderful and good. Except for one little thing.

C) God completed creation.

II) Marriage Was The Picture God Chose To Reveal Himself:

A) God the Father, God the Son, and God the Holy Spirit talked to one another and said, “We’ve got to paint a picture of ourselves for the watching world.

B) Sex is not only physical its about picturing God, it’s about our souls.

C) To be fused to another person makes it impossible to pull yourself a part.

III) Marriage Was Created For The Benefit Of All Mankind:

A) The first benefit is you get to connect with yourself.

B) The second benefit is you get connected with God.

C) The third benefit is you can have your whole self connected with someone else.
